

GWW BIOGRAPHICAL OUTLINE

If you're an aviation professional, you can submit your bio for publication on the site! These are aimed at reached very young girls, so please, no multi-syllabic words or too complex concepts that may be difficult for them to understand.

Who you are and where you live. Do you have any children, pets, etc.?

What memories do you have as a child about flying and/or aviation? Is there anyone who helped convince you that this job was something you could do?

What convinced you to become a _____? Did anyone stand in your way? What lessons did you learn on your journey to becoming a licensed pilot, certified mechanic, etc.?

If you are a pilot, where did you learn to fly, aircraft you have flown, and what you fly now? Do you own an airplane?

If your career is being a pilot, what are your duties? Or, if flying is your hobby, what do you do fulltime? Why did you choose the type of flying you do?

If you have a different aviation career, what are your duties? Why did you get involved in the field you did over another field?

Why do you enjoy your job and some interesting facts about the life of _____. Have you written books or articles about it? What is the best part of your job?

A funny story, maybe? Or a strange reaction you get from people when they learn you're a pilot or other aviation professional?

I can put pictures in of the aircraft or other things you mention if you don't have photos (... but I know you have tons!). I will eventually have a whole "filmstrip" for each contributor, so every picture you have would be greatly appreciated. Please include "fun" pictures with friends and family members. There is no limitation on the number of photographs! Video clips are also welcome.

Bonus:

Q WHAT ROLE DO SKILLS IN MATH, SCIENCE, ENGINEERING, AND TECHNOLOGY PLAY IN SUPPORTING YOUR JOB?

Q WHAT ACTIVITIES DO YOU SUGGEST FOR YOUNG CHILDREN OR YOUNG ADULTS TO PREPARE THEM FOR A CAREER LIKE YOURS?

Thank you so much for your support. You must attach at least one picture of yourself in an appropriate capacity to be posted on the website. Visitors will click on this photo to read more about YOU! And, if at all possible, please include an email address that you would like people to be able to contact you through if they desire to talk to you some more.
